- 26 Here are Akil's marbles.

Akil sorts his marbles into 5 equal groups.
How many marbles are there in each group?

marbles

1 mark

Ruby has 11 more marbles than Akil.
How many marbles does she have?

marbles

1 mark

- 6 Put a cross (X) next to the sentence that is false.

A triangle has 3 sides.

An octagon has 10 sides.

An octagon has 8 sides.

1 mark

- 7 Ruby has 238 paperclips.
Akil has one **more** paperclip than Ruby.

How many paperclips does Akil have?

paperclips

1 mark

24 Ruby has circled her birthday on this calendar.

May						
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	31				

The 1st of May is a Monday.

What **day** of the week is Ruby's birthday on?

1 mark

Akil's birthday is in the month **before** Ruby's birthday.

What **month** is Akil's birthday in?

1 mark

10 Put a tick (✓) in the box under the glass that is **one quarter** full.

1 mark

11 Here are 4 symbols.

+

−

×

÷

Fill in the boxes with the correct symbols.

- 20 Look at this sum.

$$63 + 37 = 100$$

Use this sum to fill in the missing numbers below.

$$100 - \boxed{} = 63$$

$$100 - \boxed{} = 37$$

- 21 Ruby weighs a strawberry.

How much does the strawberry weigh?

g

- 14 Akil works out 5×4 .

Put a ring around the matching **sum**.

$$5 + 5 + 5 + 5 + 5$$

$$4 + 4 + 4 + 4 + 4$$

$$4 + 4 + 4 + 4$$

$$5 + 4 + 5 + 4$$

- 15 Draw hands on this clock to show the time 'half past nine'.
