

THE ultimate PAPER AIRPLANE COMPETITION

Welcome to the Ultimate Paper Airplane Competition! Your team needs a cool nickname to go along with the color assigned to you. Give your team name to your teacher.

1 BUILD!

As a team, build a fleet of four paper airplanes. Your team will fly one airplane in each round of the competition. (Your team can build extra airplanes to have as back-ups.)

- Use your team's color to mark all of your planes' wings with large stars.

2 PRACTICE!

After all teams have had time to build their airplanes, take your fleet outside to practice. Decide as a team:

- which team member will pilot each round.
- which plane will be used in each round.

3 COMPETE!

During each round of the competition, stay with your team. When it is your team's turn to fly, have the assigned team member step up with the chosen airplane. Cheer on your teammates!
