

Y2 Maths Problem Solving and Reasoning questions

Thursday 21.01.21

You have 30 counters.

How many different ways can you put them into equal groups?

Write down all the possible ways.

A large, empty rectangular box with a black border, intended for the student to write their answers to the first problem.

Amir has some counters.
He makes 5 equal groups.

The amount he started with
is greater than 10 but less
than 35

How many counters could he have
started with?

How many will be in each group?

A large, empty rectangular box with a black border, intended for the student to write their answers to the second problem.
