

A SOCIAL STORY

GOING BACK TO SCHOOL

@therainbowclassroom

Some children have carried on going into school because their families have been keeping other people safe.

@therainbowclassroom

Some children have not carried on going into school because their families have been looking after them at home.

It is a LONG TIME since all the teachers and children were together at school.

This might make you feel sad...

I am bored
at home.

I am missing all the
people I see at school.

I feel safe
at school.

I want to carry on
learning.

I want to have a
routine again.

Whatever you are feeling is OKAY.

@therainbowclassroom

You might have lots of thoughts or
worries too...

@therainbowclassroom

I am having LOTS OF
FUN at home.

I am FED UP & BORED
of being at home.

@therainbowclassroom

Whatever you are thinking is [👉]OKAY.

I CAN'T WAIT to go
back to school.

I DON'T EVER WANT to
go back to school.

@therainbowclassroom

There is no right or wrong way to think or feel.

It is GOOD to talk to someone about how you are feeling and what you are thinking.

@therainbowclassroom

It is NOT a good feeling when you don't know what is happening.

It can make your head, heart and tummy feel a bit strange.

@therainbowclassroom

People are making plans for you to go back to school.

Right now, we are not sure when this will be for everyone, BUT... ?

We will tell you before it happens so that you have a warning.

You won't just WAKE UP one morning and have to go back to school!

@therainbowclassroom

When it is SAFE, we will all be together at school again.

At first you might feel worried, excited or a bit of both!

Everyone will be SMILING and HAPPY to see you though!

@therainbowclassroom

Your school family will do

EVERYTHING THEY CAN

to make sure you feel happy and

safe at school.
